**[EDITORIAL]**  
**SECRETARY STIMSON'S REMARK**  
The enigmatic remark made by Secretary Stimson Tuesday may well occasion concern on the part of those who gave it heed. Speaking to a special Senate defense committee he said: "Our forces must be prepared for the possibilities of war in many and varied terrains, it being quite uncertain in what part of North or South or Central America, or even possibly other regions, it ultimately may be necessary to use in the defense of this country and its possessions."  
"Or even possibly other regions"—that is the crux of the War Secretary's remark. What does he foresee? The natural assumption would be that another expeditionary force is contemplated, but just where they would be sent, and when, is a matter of conjecture.  
**THE EXPANDING FOOD STAMP**  
The Federal Food Stamp plan has been extended to all cities and towns throughout the State—tacit admission that the experiment has proven a success elsewhere, as it apparently has in Rockland. Maine is the second State east of the Rocky Mountains to be so designated. With its scope becoming statewide it is expected that the operations of the Plan will bring approximately \$2,000,000 in additional business to farmers and merchants through the increased food purchasing power provided with issuance of the free blue stamps.

**GOOD NEWSPAPER TAKES ON AGE**  
One of the best newspapers published in the United States is the New York Herald Tribune whose able and conservative editorials are republished in this column as the occasion warrants. The Herald Tribune has never yielded to the lure of sensational journalism and flashy headlines seldom decorate its front page, but the news is always there, conveniently and pleasantly arranged. The paper has just completed a century of existence, and from its modest editorial bearing on that important anniversary we make the following extracts:  
It is a striking continuity, this century of the Tribune. Looking backward over the terms of its three editors one can see hills and valleys, some wrong turnings taken, brave words now and again matched by inconsistencies. A newspaper of power and standing is the lengthened shadow not only of one man, or of a few men, but of many men—of all the courageous, hard-working, intensely loyal human beings who have, decade following decade, steered it on its course to the best of their ability. Being human, they have necessarily made mistakes. But across these decades we are proud to believe that certain fundamental traits of this newspaper have never been forgotten. Rather have they been etched deeper through the trials of every national crisis.  
The war for the preservation of the Union was the first great crisis of its maturity. Whenever the safety of the nation has been in issue, it has been glad to force politics into the background. Founded in a period of political confusion, the Tribune, at first Whig, soon became the leading journal of the new Republican party. It has remained so ever since, a firm believer in the two-party system—to incur at times the criticism of some of its independent readers. But it has been consistently independent in local politics whenever the issue of honest government was raised. And last year, when it became clear that the New Deal had destroyed the Democratic party, it urged that a lifelong Democrat be nominated for the Presidency, and in the campaign advocated a reforming of party lines around the broad essentials of Americanism.  
It has had strong convictions and expressed them courageously and forcibly to its readers on its editorial page—from the days of Horace Greeley to the present.  
Its founder was a brilliant writer and it has never forgotten that tradition. Whitelaw Reid, its second editor, an equally distinguished writer, used to say: "I do not dare to be proud of the Tribune. I do dare to be proud of its staff." Whether in the telling of a city story or in covering a war, or in the articles of its critics, or on its editorial page, or in the columns of its independent contributors, it has insisted that its readers were entitled not only to accurate thinking but to clear, vivid writing.  
If the Tribune seems today to its readers an informed and trusted friend, outspoken in its opinions, but fair to its opponents and impartial in its facts, American to the core and interesting to the last terse sentence, then we are reasonably satisfied and shall pray to be forgiven our errors with good conscience. And we shall begin today our second century with high hopes for our journal and for the nation that we would save.

**MORNING'S NEWS IN A NUTSHELL**  
London was digging out this morning from the worst air raid in its history and tens of thousands are wandering in the streets, homeless.  
The Axis forces claim to be closing in on the Allies in Greece, and say that it is only a matter of time—and a very short time.  
The British Mediterranean fleet reports the entire annihilation of an Italian convoy, sinking eight enemy ships, including three Italian destroyers.  
Germans claim the surrender of the Second Serbian Army, but admit that the British Army in Northern Greece is "showing more fight."  
Stillman E. Woodman of Machias has been renominated as chairman of the State Highway Commission.

Get Some Valuable Pointers On Farming From County Agent R. C. Wentworth  
An earnest speaker thoroughly conversant with his interesting topic—that was Ralph C. Wentworth, county agent of the Knox-Lincoln Farm Bureau, who addressed the Rockland Lions Club yesterday. His half-hour talk was supplemented by some very handsome colored stereoscopic views.  
Visiting Lions were Rev. William E. Berger and Dr. J. G. Hutchins of Camden, the latter recently returned from a vacation trip to Washington, D. C., and Alexandria, Va., where he proved to be a very keen observer, and amassed a large amount of highly interesting and valuable information. Congress, unfortunately, was having its Easter recess so he was denied the opportunity of seeing how laws are made. The entertainment committee of the local club will do well to book him for a travel talk in the near future.  
Wentworth was introduced by Ralph P. Conant who told of being a member of the group which selected the speaker as agent of the Farm Bureau 20-odd years ago. Mr. Wentworth in skeleton form outlined the important phases of the extension work and agricultural conservation conducted by the Farm Bureau, an educational organization formed for the purpose of studying the latest developments in agriculture.  
He referred to Mr. Conant as the first secretary and second president of the Knox-Lincoln Farm Bureau, which has a total of 915 members in 32 communities. Cushing and Thomaston alone not being represented in Knox County.  
Agricultural conservation is part of the Washington A. A. program, the organization in Knox County being composed of an executive committee and 25 community committees. Its purpose is to conserve and improve the soil, and by the end of the present year 2000 tons of lime and 1000 tons of superphosphate will have been furnished. Lime is necessary on practically all of the soil, as manure is about all that has been put back. Last year cash payments amounting to \$2500 were made to farmers in Knox County.  
Another phase of farm management to which much attention is now being paid is "Land Use"—the plotting of communities into good land, poor land and forestry land. A

**Confer On Lobsters**  
Senator White and Representative Oliver will confer Friday with officials of the Bureau of Fisheries in the Department of Commerce regarding the bill introduced by both members, limiting minimum length of lobsters to be sold in interstate commerce in the United States or imported into the United States. Purpose of the conference is to lay the situation before the officials and enlist their sympathy and support for it as a conservation measure.  
The members also are taking chart revealed the results in striking fashion.  
A section of poor land in Alna, owned by the town, was planted to 6000 spruce trees, and town expense was saved by closing a useless road.  
Importance of blueberry growing was stressed, and Mr. Wentworth made the surprising statement that 300,000 bushels were harvested in Knox County last year, and sold for canning or freezing purposes. The importance of "dusting" the crops was also emphasized. Of 46,000 bushels picked in one pasture, after dusting, only 11 bushels were condemned on account of maggots. Mr. Wentworth saw no necessity for raising the cultivated variety when blueberries like those found in Knox County can be harvested. His views showed some of the fine samples on Earl Norwood's farm in Hope.  
Pasture improvement came in for attention. The speaker told of a new variety of clover, which not only makes good pasture but excellent hay. Dairy herd improvement is another important feature of Farm Bureau work. The herd at the State Prison Farm comes under this heading and has already shown increased production of butter fat. Supplementary feed in the form of oats, millet and sudan grass was strongly recommended, together with fertilization of the pastures—a ton of lime and eight cords of manure to the acre, the latter to be spread preferably on a rainy or lowly day.  
Some classy poultry was shown in the pictures, the speaker expressing the belief that many plants will be cut down this year on account of a labor shortage.  
Henry A. Howard was appointed editor of the Lions Tale for next week.

(By The Roving Reporter)

Reminiscent of the old "run-away" days which used to draw such crowds on Main street, was the automobile crash near The Brook Tuesday afternoon. Motor accidents receive a due amount of attention but they completely lack the tremendous thrill which was caused in the olden days when a horse would run away, leaving a trail of wreckage along the street, together with broken bones.  
Mrs. Doris Merrifield of South Hope volunteers another word contest, making use of this department's title, The Black Cat, from which she has constructed the following words: At, ale, ace, ate, attack, act, a, able, ache, bat, back, black, beat, bake, bale, balk, be, bleat, baa, bet, beak, cat, cab, cake, cable, catch, cackle, calk, chalk, eat, each, he, hat, hack, heat, halt, hate, heal, hale, kale, jack, late, lake, let, leak, lace, lache, lat, tale, the, tact, table, talk, tack, take, tab, teat, teak, tablet, tackle and teach—a total of 63 words.

Jack Wilson, Author, To Swap Hope Farm Life For "Hour of Duty"  
John Wilson, Jr., of Hope, first lieutenant, Field Artillery, whose stories have appeared in many national magazines under the pseudonym "Jack Wilson," has been ordered to report in Boston Tuesday for examination, with an extended tour of duty at Fort Bragg, N. C., in prospect.  
Mr. Wilson, born in St. Petersburg, Russia, lived in Europe for several years before coming to this country, where he attended Boston College and graduated from Dartmouth.  
For the past few years he has been living at his farm in Hope with his family, writing several short stories for newspaper and magazines.  
Donald Cameron of Union and Port Levett, Portland, was in Municipal Court Wednesday morning as the result of an accident on Main street Tuesday afternoon, when a car allegedly driven by Cameron struck another car containing Mrs. Nancy Watts and Mrs. Ruth Wilson of Port Clyde. Cameron pleaded guilty to charges of driving under the influence of intoxicating liquor and driving without an operator's license, and was sentenced by Judge Dwinel to 90 days in jail, and fined \$200 and costs of \$13.26 on the first charge, and \$10 and costs of \$2.20 on the second. It was Cameron's second offense on the liquor charge, having been convicted in August, 1936. Judge Dwinel telephoned authorities at Port Levett because of Cameron's position as a soldier, home on leave, and the Port turned him over to the city authorities. Mrs. Watts and Mrs. Wilson were taken to Knox Hospital for treatment, having received a shaking up.

### Book Review

(By K. S. F.)

"The River Rises," author Helen Abbott Beals. Published by The Macmillan Company, New York. This dramatic and vivid story is brimming with human alertness. The author has the rare gift in her style that provokes close attention to detail of character analysis; she convinces her readers that the story is from life's true experiences. She really holds the close attention to her weaving, in chapter after chapter of vital situations in every day life. The tale piles up to a fine climax of noble character building. There is love and duty, and humor and sorrow, all woven into a tapestry of rare and fascinating design of high and intimate measurement. Helen Abbott Beals knows love and passion and beauty and wit, the keenest serenity, together with her gracious naturalness she writes and delights. The book is charmingly bound in soft green with excellent print and workmanship like all of Macmillan's output.

### Its Annual Meeting

#### Shakespeare Society Has Happy Evening—Members Match Wits In Contests

The annual meeting and banquet of the Shakespeare Society was held at the Copper Kettle last night. Twenty-seven members and two alumnae responded to roll call with quotations from "King John" and "The Winter's Tale" which were printed on the attractive place cards, made by Mrs. J. A. Jameson and Miss Ellen Cochran. The president appointed Mrs. Eva Heller, Mrs. Vanessa Cowan and Mrs. Gertrude Burrows as a picnic committee.

Officers elected for the following year were: President, Mrs. Alice Jameson; vice president, Mrs. Gertrude Wooster; secretary, Mrs. Nettie Frost; treasurer, Mrs. Mabelle Spring; program committee, Mrs. Dorothy Ludwick, Mrs. Edith Bird and Mrs. Irene Moran. It was voted to donate \$10 as usual to the Public Library.

Between the courses of the delicious chicken dinner Mrs. Dorinda Coughlin, chairman of the evening's entertainment, drew several numbers and those selected were called upon to give an extemporaneous speech lasting 1½ minutes on the following subjects:

"Eggs," Mrs. Alice Jameson; "Rings," Mrs. Julia Murray; "Pistons," Mrs. Irene Walker; "Buttresses," Miss Ellen Daly; "Babies," Mrs. Ethel Lovejoy; "Spoons," Miss Alice Erskine; "Bottles," Mrs. Mary Smith. The judges, Mrs. Alice Jameson, Miss Annie Frost and Miss Mabelle Spring, awarded the prize to Miss Ellen Daly.

At the conclusion of the banquet an amusing contest was conducted, with different members representing book titles: "Little Women," Mrs. Jane Beech; "Middlemarch," Mrs. Edith Bird; "The Winter's Tale," Miss Ellen Cochran; "For Whom the Bell Tolls," Mrs. Dorinda Coughlin; "Good-bye Mr. Chips," Mrs. Vanessa Cowan; "Gone with the Wind," Miss Ellen Daly; "The Letter," Mrs. Katherine Derry; "Cinderella," Miss Alice Erskine; "Lavender and Old Lace," Miss Annie Frost; "Random Harvest," Mrs. Harriet Frost; "The Light That Failed," Mrs. Nettie Frost; "Wake Robin," Mrs. Eva Heller; "The Donkey Inside," Mrs. Evelyn Hix; "And Tell of Time," Mrs. Alice Jameson; "Out of the Night," Mrs. Ethel Lovejoy; "The Chiffon Scarf," Mrs. Elizabeth Pomeroy; "Come Spring," Miss Mabelle Spring; "The Donkey Inside," Mrs. Emily Stevens; "Good-bye Mr. Chips," Miss Josephine Thorndike; "Back Street," Mrs. Leola Wiggins; "Beloved Friend," Mrs. Irene Walker; "Come Spring," Mrs. Dorothy Ludwick; "The Silver Box," Mrs. Ruth Albee; "For Whom the Bell Tolls," Mrs. Julia Murray; "Come Spring," Miss Mabelle Spring; "All This and Heaven Too," Mrs. Winifred Adams; Mrs. Harriet Frost and Mrs. Ethel Lovejoy, naming correctly the greatest number of titles, were prize winners.

The evening's entertainment was brought to a happy conclusion by the presentation of Shakespearean charades and pantomimes in costume: "The Tempest," Mrs. Vanessa Cowan; "Two Gentlemen of Verona," Mrs. Ruth Albee; Mrs. Dorothy Ludwick; "Merry Wives of Windsor," Mrs. Katherine Derry; Mrs. Nettie Frost and Mrs. Dorothy Ludwick; "Measure for Measure," Mrs. Evelyn Hix; "The Com-

**MAJORETTES ON REVIEW**  
Saturday, a new and completely different type of Roller Skating Review will be presented at the Ocean View Rollerway, Main street. It will consist of local girls, 18 in all, completely uniformed in red, white and blue majorette uniforms. Miss Barbara Boardman is the drum major and 17 girls are in the main review.

Several roller dance and novelties will be exhibited by different groups. Waltz steps and 14 steps will be skated by Misses Avis Taylor and Blanch Sylvester. Two step and promenade by a group of four girls skating in a procession. Miss Betty Skinner in a novelty dance with her newly created "Pat Stuff" with Miss Betty Sylvester also giving an impression of "Charlie McCarthy." Little 13 year old Mary Walker is one of the outstanding girls with her Free Style

number. There will also be several different numbers of roller skating novelties by girls of the review.

This group of Majorettes will go to the roller skating rink at Bath Tuesday night and to Bar Harbor April 23.

The girls of this Review have been working hard for several weeks under the coaching of Herbert Young, manager of the Ocean View Roller way. Several of the other rinks in the state are very anxious to have the Majorettes come to their rinks but as many of the girls are of the school age it is impossible to take them to all of the different places. Saturday night there will be skating as usual with a half hour extra skating time given to the public.

### FRIENDSHIP

A local branch of the Red Cross was organized Monday, with these officers: Chairman, Mrs. Charles Stenger; secretary, Mrs. Richard Clifford; treasurer, Guy Besse. Attendance numbered 35. Plans were made for the members to sew every Tuesday afternoon, the first meeting to be next week at the home of Mrs. Mabel Beale. Everyone is welcome.

#### Sales Tax Bill Swamped In The House—Other Legislative Matters

Two percent sales tax bill dressed up with a "homestead exemption" provision aimed at relieving taxes, met emphatic defeat yesterday in the House.

The 102 to 30 roll call vote came at the end of two hours of debate during which the measure was defended as a plan for making home ownership easier, but mainly opposed because of its method of raising the money. Sixteen members were absent.

Representative Sleeper, of Rockland asserted that if old age assistance could be financed by a tobacco tax and a small tax on liquor "we ought to do it." Nine out of 10 persons who had spoken to him on the tax question, he said, had told him that if a tax bill was to be passed they "hoped it would be a tobacco tax."

Sleeper said he believed the old age assistance problem would be only temporary one for the state to assume, expressing opinion that the Federal Government would take over full payment of pensions

for the aged within a few years. Declaration that a 2 percent sales tax would increase the living costs of the people by just that amount, was made by Representative Dwinall of Camden in opposing the bill.

"The poor man will have to reduce his living standards by that percentage," he said, in a state known to be "a low income state."

Five Maine projects have been inserted in the House Rivers and Harbors Bill to be reported out soon in Congress. Knox County experiences satisfaction over the announcement that \$28,000 is authorized for Isle au Haut.

Easter Sunday at the Littlefield Memorial Church was marked by a record attendance at the morning service. The church auditorium, recently redecorated, was resplendent with lilies and potted plants. Easter lilies were given in memory of the following: Deacon and Mrs. Alvin Babbidge, Deacon Edgar W. Barter, Mrs. Florence Bartlett, Mr. and Mrs. John Halvorsen, Mrs. Alice Sprague and Leslie Hamilton, George Grover and son James, Mr. and Mrs. Charles Carter, Mrs. Katie McAllister, Mrs. Hazel Knight Parreault and brother, Milton Knight. An attendance of 245 was reached in the Sunday-School, the largest since the Baptist Church School Advance Program was instigated. The pageant "He Lives" was presented in the evening by the young people in a creditable and impressive manner, beautifully portraying the Easter message to a large audience.

The president of the Woman's Educational Club appoints Mrs. Lenore Benner Savage, secretary of the Chamber of Commerce, as club auditor for 1940-41, covering two treasuries. Mrs. Zaida Winslow, resigned and Mrs. Cora Haraden, present treasurer. Those owing this club and those having bills against the club are requested to present them now before the books are closed for audit. The annual meeting is Friday May 2, in Grand Army hall. Many are still ignorant of the scope and importance of the club movement, and of the fact that it started because Jennie Crowley was refused admission to a New York dinner in honor of Charles Dickens in 1868 for no other reason than that she was only a woman. The protest grew until the general Federation of Women's Clubs today has two million of our most intelligent women numbered proudly in its membership to celebrate in Atlantic City next month its Golden Jubilee. Its progress is phenomenal.

Boston has its "Little Building," and Camden has its "Little Diner," located on Elm street, operated for 10 years by Yorkie and serving the very best obtainable hot dogs, pop corn and sandwiches of all kinds. The "Little Diner" will open for the season tomorrow.—adv.

The Home Owner's Loan Corporation reports the sale of the McMahon property at 14 Lawrence street to Bessie Scott of South Thomaston; the Annis house at 394 Broadway to Manuel Winchenbach and the M. Hamilton house on Rankin street to Irving Keizer. Elmer Davis was the realtor.

Everybody who passes the corner of Main and Pleasant streets is enthusiastic over the marked improvement which has been wrought by tearing down the wooden block which the late Capt. David Robinson built there while he was engaged in his successful career as a mariner, visiting the world's ports.

In this block was established a dry goods business, the partners of which were Capt. Robinson and the late Mrs. Emma Crockett. They conducted the business jointly for 12 years, after which Mrs. Crockett joined the staff of Fuller & Cobb. The Robinson block at the time of its demolition was owned by the city, which will use the northern end of the lot in widening Pleasant street. The remainder will be annexed to the property owned by Miss Maud Staples and converted into an attractive lawn, reverting to the status it enjoyed 100 years ago.

The Courier-Gazette is in receipt of a copy of the "Chaplain's Bulletin" issued at Camp Blanding, Fla., by Rev. Corwin H. Olds of Rockland, regimental chaplain of 152d Field Artillery, 43d Division. The Bulletin is published weekly in the interests of the general and religious welfare of the Regiment. The well filled pages of the little magazine indicate that time is not hanging heavily on Mr. Olds' hands because there are activities galore, and everything possible is being done to make the lot of the transplanted Maine soldiers a comfortable one. An amateur radio station is among these activities. "Get Acquainted" is one of the mottoes.

# HAPPY RELIEF FROM PAINFUL BACKACHE

Many of those gnawing, nagging, painful backaches people have on colds or strains are often caused by tired kidneys—and may be relieved when treated in the right way. Tired kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste material stays in the blood. These poisons may start nagging backaches, rheumatic pains, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

## This And That

By E. S. F.

South America has nearly twice the area of Europe but only one-sixth of the population. But wait and see if this number will not be doubled after this war. Who wants to live in a Hitler-governed country?

Character is built by environment. Home, schools, church are the most important, but influence is a strong factor, a mother's, a father's, a brother's, a sister's, a teacher's, some one of these gain the closest contact to the thinking mind and heart and this influence tells through the years. Then there is the building of character, and is not each citizen worthy of taking on more of the responsibility for building clean manhood and womanhood in youth?

New England gained approximately 50 percent in chicken production in the last decade.

Did you know that in a single day a caterpillar eats six to eight times its own weight? It is mostly full of the best flora, and another thing the woolly little worm sheds its fuzz and if you happen to be in line and it gets on your skin you are apt to have a rash break out that is not so comfortable.

Help the cause to eradicate cancer. It claims its greatest number of victims in the age group of 65 to 70 years. Just when life is at its interesting best and the days work is easier, then this dreadful malady strikes in. Early treatment will help the span of life.

Can anyone explain what the purpose of the "bell" on the throat of a mouse is for? Someone has said it's the wind pipe!

Sales taxes, almost unknown 20 years ago, constituted approximately 40 percent of all State tax revenues in 1940, according to the Census Bureau.

The moon has given a wonderful show the past week and those who have not observed its rare glory have missed a treat.

Europe has either forgotten the Christian mode of life that was given by the Saviour of the World. "Love thy neighbor." They seem to have put a hood on that words ending and gone after it.

Who is there so base that they do not take delight in riddles? Here is one I found recently in a contemporary newspaper: "What is the difference between a law and a potato?" Well, one you can repeal and the other you can't.

And are people tired of this sad word in the news for the past several years: "Stock market is slightly lower today."

Who has rubber fenders on his car and how do the general public like them?

What has become of the splendid boys' conferences held each year for youth uplift in this part of the State?

It was Benjamin Franklin who said, "I conceive that great part of the miseries of mankind are brought upon them by the false estimates they have made of the value of things, and by their giving too much for their whistles."

Aluminum has taken the place of tin, iron, copper and much of the granite ware that formerly was in use in kitchens, hospitals, and other places where cooking is done. The annually produced ware of aluminum exceeds \$37,000,000 in value, and the tin will be growing scarcer as this war advances. Also the aluminum is so valuable now people may go back to iron.

So the Federal Communications Commission has ordered an investigation of long distance telephone rates.

Did it ever occur to you that flowers affect one's mental thoughts? Take a sturdy geranium and look at its vigorous growth and generous hardy leaves and blossoms. One at once feels like going to work. When one sees perfect pansies in a well cultured bed, one at once grows meditative and searching for a line of poetry to meet the needs of the moment and thus are flowers a prey to moods.

The robins are very fat and lovely this season and full of joy, possibly because of abundant sunshine.

Someone once said the waves of the sea are like unnumbered smilings. One comes as fast as another vanishes in dimpled waters.

The politician was warming up to his subject. "Those astounding figures, ladies and gentlemen, are not my own. They are the figures of a man who knows what he is talking about." Then he wondered why his audience laughed.

## The Garden Club

Rockland Members Spend Profitable Evening At Heistad Home, Rockport

The Rockland Garden Club met Tuesday night at the home of Mr. and Mrs. Hans Heistad in Rockport. A very interesting evening was enjoyed by the members. Mrs. Dana Newman presided in the absence of the president, Mrs. Donald H. Fuller. The following nominating committee was appointed: Mrs. J. Albert Jameson, Mrs. E. Stewart Oberon and Mrs. Edward Helier. Several members spoke briefly on their plans for garden work this season.

Miss Caroline Jameson told of an interesting article in the last issue of Nature Magazine on "My Robin." Mrs. Oberon stated that there is a strong trend toward the red white and blue flower gardens. An interesting newspaper article in connection with the Massachusetts State flower show suggests for the patriotic garden, white stock, snapdragon or alysium; red, geranium or nasturtium; blue, delphinium, ageratum or brodiaea, with paths of fine white gravel edged with vermillion brick.

Mrs. Russell Bartlett told of the interesting and wonderful displays at the Massachusetts Flower Show held in Boston last month.

The program was concluded with a most interesting talk by Mr. Heistad who said:

"There seems to be a spiritual relationship among people interested in the same things, and especially in gardening. Surrounded with trees and flowers and the growing things of nature we can find peace, quiet and contentment. When you plant, make a picture in your mind; if you plant a tree, plant with a vision, and try seeing the tree as in 10, 20 or even 100 years."

The annual meeting of the club will be held next Tuesday at 2.30 at the home of Mrs. Lincoln MacRae. Election of officers will take place, the committee reports will be read and tea will be served.

## A FAMOUS ORCHESTRA

Will Be Heard at Camden High School Band Entertainment Next Tuesday Night

The Camden High School Band is pleased to announce the third appearance of the nationally famous, ever-popular Fenton Brothers at the Community Building, Rockland, April 22. This well-known orchestra of 14 men and a girl recently completed a most successful tour of Keith's Theatres, starting with the R.K.O. Keith's Theatre in Boston.

While in New York, they played with Rudy Vallee at the Arcadia Ballroom, an occasion which drew a large number of celebrities.

They returned in January from Cleveland, Ohio, where, at the Trionon Ballroom, they broadcast with the nationwide N.B.C. stations three times weekly for six weeks.

The most widely known dance orchestra in the state, its program consists of skits, novelties, and dance music to suit everyone from the ordinary dancer to the liveliest jitterbug.

Those who attended the Fenton Bros. dance over a year ago in Rockland will endeavor not to miss hearing a really fine dance orchestra.

Roger A. Newhall, student at the New York Trade School, New York City returned Tuesday after spending the Easter vacation with his parents Mr. and Mrs. Edgar Newhall, Broadway.
